PRESENTATION

I am fascinated by innovation and application development. Giving shape to unique, intuitive and e ffi cient products is a source of satisfaction which is a pleasure to share as a team.

Always enthusiastic about the projects, I appreciated the contact with the concrete during my two internships in a professional environment. These brought me various skills which seem appropriate to me for the fields of innovation.

I developed several applications during my internship in a design agency and then during my training.

My portfolio is available here: https://arthurglaizal.github.io/

PERSONALITY

Versatility

Rigor

Creativity

SKILLS

01 Computer Assisted design

PTC Creo
Catia V5
Solidworks

02 Programming and development

Unity3D
Steam VR
C (arduino, script)
HTML5 / CSS3
R (statistique)
VBA

03 Communication

After effect
PS, In Design
Adobe illustrator
Adobe XD
Keyshot
Mircosoft Office
Blender

EXPERIENCES

Assistant designer internship - engineer - Dièdre Design - 6 months - 2019
Joining the Dièdre Design agency team, I was responsible for developing various projects. The team being reduced, the missions adapt to customer priorities and require agility. I was lucky to be able to work on the various design fields offered, but also on technical issues with virtual reality.
· Development and design of 2 VR applications using Unity3D.
· Realistic rendering, product video & graphics.
· Interface analysis. Leaflet conception.
Dièdre Design. FRANCE, Île-de-France.

DIEDREDESIGN

Prototyping monitor Fab Lab - 5 months - 2018
Student work in the prototyping workshop of the innovation center of the University of Technology of Compiègne.
· Permanences of the workshop: machine maintenance and training.
· Assistance and advice to users.
Innovation center UTC. FRANCE, Compiègne.

Assistant engineer internship in product development department - 6 months - 2017 to 2018
Assistant to the product development manager at the Cartier eyewear factory (made in France).
· Piloting tools & project monitoring.
· Continuous improvement.
· Competitive intelligence.
Manufacture Cartier Lunettes. FRANCE, périphérie Paris.

Cartier

TRAINING

Mechanical engineer diploma - 2016 to january 2020
Mechanical engineering branch with industrial design course. Design office elements, R.D.M, programming, etc.
Université de Technologie de Compiègne. FRANCE, Compiègne.

University exchange - 1 semester - 2018
Industrial design: 2 projects, creativity by the group, material culture.
Université de Montréal. CANADA, Montréal.

University exchange - 1 semester - 2016
Common engineering core: quality management, numerical analysis.
Université de Technologie sino-européenne, 上海大学. CHINE, Shanghai.

Common engineering core - 2014 à 2016
Engineering basics: Maths, electronics, physics, etc.
Univeristé de Technologie de Troyes. FRANCE, Troyes.

Scientific Baccalaureate- 2014
Honors
FRANCE, Valence.
